CURRICULUM VITAE

General information:

Name: Hamid Noshad.

MALING ADDRESS:

hamidnoshad1@yahoo.com

Post Office Box:

5138638779

Tel: Fax:

04115415023, + 0989143115927

Date of Birth:

1th September 1964.

Place of Birth:

Tabriz,Iran

Marital Status:

Married.

Citizenship:

| Iranian. |
|--|
| Languages: |
| Farsi, Azari, English |
| Education: |
| Medicine. |
| Internal medicine. |
| Nephrology. |
| Thesis during education: |
| Transient ischemic attack in patients with hypertension. |
| Electrocardiographic changes after kidney |
| transplantation. |
| Comparison of low dose corticosteroid with high dose pulse therapy for induction |
| therapy during induction of kidney transplantation. |
| Clinical Instruction: |
| Instruction of toxicology. |
| internal medicine. |
| nephrology for medial students and residents. |
| COMMITTEES: |

Morbidity and mortality committee of Sina hospital, Tabriz , Iran.

Doctoral Thesis:

- 1) Study on causes of arteriovenous fistula recirculation in hemodialysed patients of Tabriz Sina hospital.
- 2) comparison of three directional blockade of rennin angiotensin aldostron system and monothrapy in diabetic nephropathy.
- 3) study of the prevalence of the renal artery stenosis in diabetic patients with hypertension.
- 4) Ethiology and causes of drug poisoning in Sina hospital.
- 5) comparision of outcome and health related quality of life in patients on hemodialysis and peritoneal dialysis.
- 6) Comparision of gabapantin and antihistamins in treatment of uremic puritus.
- 7) Comparing of combination therapy of paraquat poisoning with old treatment protocols and pulse therapy (cyclophosphamid and methyprednisolon).
- 8) Study of cardiac mortality and complications due to organophosphate insecticide poisoning and its electrocardiographic manifestation.
- 9) Causes of arteriovenous fistula recirculation in hemodialysed patients of Sina hospital, Tabriz, Iran.
- 10) Death factors in critically ill patients with acute renal failure.
- 11) Study of dialysis insufficiency and etiologies in Sina hospital, Tabriz, Iran.

Abstracts:

- Failure of AVF for hemodialysis. (2007 word congress of nephrology, Brazil)
- 2) Calciteriol, started on donor side, expands the population of CD4+ T cells in renal transplant recipients. (2007 word congress of nephrology, Brazil)
- 3) Cardiovascular risk factors in renal transplantation candidates. (9th meeting of Turkish transplantation society 2007).
- 4) Renal allograft vasculitis a new feature of parvovirus B19 infection. (11th International congress of nephrology, dialysis, transplantation. (2007 Iran).
- 5) Comparison of quality of life:hamodialysis versus peritoneal dialysis patients.(11th International congress of nephrology, dialysis, transplantation. 2007 Iran).

- 6) Hemodialysis patiente who did not need erythropoietin supplementation in our dialysis center.(11th International congress of nephrology, dialysis, transplantation. (2007 Iran).
- 7) Hypophosphatemic encephalopathy in a patient on CAPD. (11th International congress of nephrology, dialysis, transplantation. (2007 Iran).
- 8) Unexplained pulmpnary hypertension in patients on continious ambulatory peritoneal dialysis. (11th International congress of nephrology, dialysis, transplantation. (2007 Iran).
- A comparison of sympathetic skin response in patients on peritoneal dialysis and hemodialysis. (11th International congress of nephrology, dialysis, transplantation. (2007 Iran).
- 10) Effect of prophylaxis with low dose anti thymocyte globulin on prevention of acute kidney allographt rejection:a comparative study. (11th International congress of nephrology, dialysis, transplantation. (2007 Iran).
- 11) Thrombotic microangiopathy after renal transplantation. (11th International congress of nephrology, dialysis, transplantation. (2007 Iran).
- 12) Renal involvement in Behcet disase. (11th International congress of nephrology, dialysis, transplantation. (2007 Iran).
- 13) Three directional blockade of rennin angiotensin aldostron system and diabetic nephropathy. (11th International congress of nephrology, dialysis, transplantation. (2007 Iran).

- 14) Study of relationship between anti chromatin antibodies with renal and extrarenal features and rate of disease activity in patients with systemic lupus erythematosus. (11th International congress of nephrology, dialysis, transplantation. (2007 Iran).
- 15) Oxdative stress and antioxidant treatment in patients with renal failure (8th Iranian congress of biochemistry and the first international congress of biochemistry and molecular biology).
- 16) Peripheral neuropathy in hemodialysis and peritoneal dialysis patients.(7th European peritoneal dialysis meeting).
- 17) Antioxidant activity and lipid peroxidation. (7th European peritoneal dialysis meeting).
- 18) Peritonitis and CA-125 levels in CAPD patients. (7th European peritoneal dialysis meeting).
- 19) Kidney transplantation candidates and cardiovascular risk factors. (10th congress of the Middle East society for organ transplantation 2007).
- 20) Improvement of sever heart failure with mulivalvular dysfunction after successful kidney transplantation. (10th congress of the Middle East society for organ transplantation 2007).
- 21) Comparison of efficacy and complications of induction therapy with low dose and high dose steroid in kidney transplanted patients. (9th annual Iranian congress of nephrology, dialysis and transplantation 2005.)
- 22) A placebo controlled clinical trial with gabapantin in uremic itch treatment. (10th Iranian annual congress of nephrology, dialysis and transplantation 2006).

- 23) Failure of the arterio-venous fistula for hemodialysis. (10th Iranian annual congress of nephrology ,dialysis and transplantation 2006).
- 24) Prevalence of gastrointestinal symptoms in patients with end stage renal disease. (10th Iranian annual congress of nephrology, dialysis and transplantation 2006).
- 25) Efficacy of raloxifen comparison to placebo in treatment of menopausal women with fibromyalgia.(Reumantova 2007 Italy).
- 26) Study of incidence of renal involvement in 100 patients with Behcet disease. (1st Congress of Iranian rheumatology society, 2007).
- 27) Rheumatologic manifestations of HBV and HCV. (1st Congress of Iranian rheumatology society,2007).
- 28) Neurologic complications of patients with rheumatoid arteritis and its relationship with disease activity.
- 29) Neurologic complications of Behcet disase.
- 30) Osteoporesis in patients with rheumatoid arthritis and control group.

Participation in Workshops:

Multiple choice questions.

Evidence based medicine.

Reference manager.

Spss workshop.

OSCE

Medical & Extra medical Interests:

- 1) Pathology of kidney disease.
- 2) Kidney sonography.
- 3) Medical statistics.

Professional Employment History:

I am working in toxicology, nephrology and general internal medicine wards.

CURRENT DUTIES:

Medical Director: Director of toxicology and nephrology ward of Sina hospital.

Board certification:

Internal medicine (specialist) Nephrology (subspecialist).

SCIENTIFIC MEMBERSHIP:

- 1) Member of EDC as scientific committee.
- 2) Member of Iranian Association of nephrology since 2004.
- 3) Member of international society of nephrology (ISN).
- 4) Reviewer of Saudi medical journal (SMJ).
- 5) Reviewer of deputy for research, faculty of medicine.

Research projects:

Severity of arterial atherosclerosis in patients with chronic renal failure and its relationship with tissue and serum ET-1 level.

Referee:

- 1) Serum transferin level alteration and nutritional factors in DM II nephropathy.
- 2) Serum leptin level alteration and lipid profile in DM II nephropathy.
- 3) Antioxidants modify acute renal failure.
- 4) Efeects of gabapentin in uremic itch syndrome.
- 5) Prevalence of acute renal failure in critically ill patients.
- 6) Acute renal toxicity of two conditioning regimens in patients undergoing

- autologous peripheral blood stem-cell transplantation:TBI-CY vs ICE.
- 7) Lipoprotein(a) and homocysteine in hemodialysis patients, following nandrolone decanoate therapy.
- 8) Spontaneous bacterial peritonitis in an adult patient with chronic renal failure.
- 9) Diabetic nephropathy in Mexican Americans.
- 10) Clinical effect of calcium dobosilate on treating proteinuria of nephropathy.
- 11) Assessment of relationship between hypotension during haemodialysis and hypocalcemia.

Seminars:

- 1-Director of seminar for education of general practitioners (2007).
- 2-Seminar of kidney disease for general practitioners.(no. 7)(2006)
- 3-Drug and paraclinic prescription for general practitioners (2005).
- 4-Seminar of kidney disease for general practitioners.(no.8)(2007)
- 5-Pathophysiology of ARF & CRF(2007).
- 6-Diagnostic methods of renal diseases(2007).
- 7-Chronic renal failure for general practitioners (2007).

Conferences:

- 1) MESOT 2007 KUWAIT.
- 2) 10^{TH} Iranian conference of nephrology.
- 3) 9th Iranian conference of nephrology.
- 4) 8th Iranian conference of nephrology.

- 5) 8th Iranian congress of biochemistry and the first international congress of biochemistry and molecular biology.
- 6) 11th International congress of nephrology, dialysis, transplantation.(2007 Iran).
- 7) Dialysis, transplantation and burn, Turkey 2007.
- 8) 7th European peritoneal dialysis meeting.(Prague 2005)
- 9) 10th congress of the middle east society for organ transplantation 2007).
- 10) 9th annual Iranian congress of nephrology, dialysis and transplantation 2005.
- 11) 10th Iranian annual congress of nephrology ,dialysis and transplantation 2006.
- 12) 1st Congress of Iranian rheumatology society,2007.

Taken Classes:

- 1) Excel.
- 2) Power point.
- 3) Access.
- 4) Word.
- 5) Windows.
- 6) Internet.
- 7) Basic of computer.
- 8) SPSS.

TEACHING EXPERIENCE:

- 1) Physiopathology of kidney disease for medical students of Tabriz medical university.
- 2) Pysiopathology of kidney disease for medical students of Azad university of Tabriz.
- 3) Internal medicine for students of pharmaceutical university.

- 4) Internal medicine for dentistry students.
- 5) Classes for stagers.
- 6) Classes for interns.
- 7) Classes for residents.
- 8) Internal medicine for nursing students.
- 9) Hemodialysis and peritoneal dialysis complications for general practitioners.

Practical and paraclinical activities:

- 1) Kidney biopsy.
- 2) Study of pathologic preparations of kidney biopsy.
- 3) Insertion of hemodialysis catheter and instruction for students and residents.
- 4) Consultation and solving of problems of residents and students:
- 5) Response to residents and students questions and solving of their questions about consultations.
- 6) Study of urinary sediment of patients with residents and students in all wards of Sina hospital.

Other activities:

- 1) Visit of patients in Sina hospital clinic for six times a week.
- 2) Answering for internal medicine, nephrologic, toxicological consultation in Sina hospital for all of the month.
- On call of toxicology during all of the month and fifteen days for internal medicine general ward.

- 4) Visit of transplanted patients durig and after transplantation.
- 5) Active teaching rounds with residents and medical students all of the week.
- 6) Visit of the hemodialysis ward during vacations.
- 7) Teaching of hemodialysis and peritoneal dialysis for residents, students and nurses.
- 8) Morning report direction for three times a week.
